Thanks for the update. I agree timelines are important to add.

Sorry for being off line....was driving to Grand Rapids for a meeting tomorrow.

We will circulate a fleshed out plan late Thursday or Friday.

Hi Jay.

I just had a meeting with Elise.

She appreciated your outline. She needs to see some timelines added, especially with regard to Watergen.

I took the liberty of adding to your outline, carving out specific tasks with regard to collaboration with vendors, and the CRADAs, starting first with Watergen. The timelines I provided are merely placeholders. You will want to change them.

I left you a voice message, and it looks like you've logged off for the day. If you want to talk tomorrow, I'm available. (I'm also here until about 5:45 if you're not gone today.)
